

# V – Cut Double Mitre Saws

V-Cut Double Mitre Saw is the ideal machine for cutting aluminium mitred frames.

Two blades fixed at 45 degrees guarantee a perfect mitre every time.

The most efficient way to cut Flyscreens, Security Doors and Awning windows.

If you are still using a single head drop saw to cut your mitres and wish to increase the quality and quantity of your output then a V-Cut Double Mitre Saw is the machine is for you.

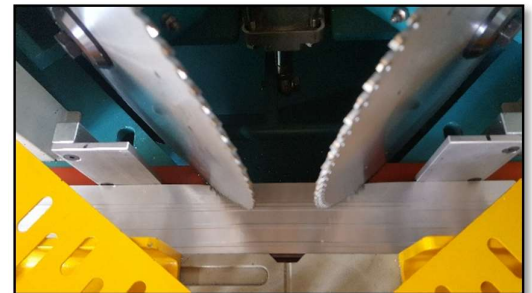

**1** TAKE ONE SECTION:

**2** PRECISION-CUT INTO 4 PIECES – time taken one minute

**3** PERFECT MITRED  
CORNERS READY  
FOR ASSEMBLY

The close configuration of the blades minimises offcut and waste
